

**Books You Must
Read Before
30s**

"Atomic Habits" by James Clear

This book provides practical strategies to build good habits, break bad ones, and optimize your daily routines for personal and professional growth.

"Deep Work" by Cal Newport

Learn how to focus without distraction on cognitively demanding tasks, enabling you to produce high-quality work and boost productivity.

"How to Win Friends and Influence People" by Dale Carnegie

A timeless classic that offers valuable insights into interpersonal skills, communication, and building meaningful relationships.

"Thinking, Fast and Slow" by Daniel Kahneman

Explore the two systems that drive the way we think, helping you make better decisions and understand human behavior.

"The Lean Startup" by Eric Ries

If you're interested in entrepreneurship and innovation, this book introduces the lean startup methodology to create and manage successful ventures.

"The Design of Everyday Things" by Don Norman

For those in product design or user experience fields, this book explains the principles of good design and user-friendly products.

"The Innovator's Dilemma" by Clayton Christensen

Gain an understanding of disruptive innovation and how successful companies can be derailed by disruptive technologies.
